

PRESS RELEASE

Liquidware Labs Stratusphere Shortlisted by Judges as a Citrix Synergy Best of Show Finalist *Citrix Community invited to vote now for Best of Show in three categories*

Alpharetta, Ga. – May 7, 2010 - Liquidware Labs, the leader in Assessment and User Experience Management for next generation desktops, today announced that Liquidware Labs Stratusphere has been named as a Citrix Synergy Finalist in the Business Efficiency category. Attendees of Citrix Synergy and the VDI community are invited to vote for the awards now at <http://web.citrix.com/synergy/bestofsynergy/>

Stratusphere helps make organizations moving to VDI (virtual desktop infrastructure) technologies such as Citrix XenDesktop more efficient. The Stratusphere Fit portion of the solution performs a full assessment on an organization's desktop infrastructure, gathering usage data and metrics at all integral levels – from the desktop, to the network, to the datacenter, to the SAN. Stratusphere UX (User Experience) goes to work immediately after a migration by using similar metrics to ensure that an optimum desktop experience is being delivered to users. The solution has built-in alert mechanisms to inform appropriate teams when performance of any integral part of the infrastructure falls below a specified threshold.

Liquidware Labs will be showcasing its award-winning solutions next week at Citrix Synergy in booth #614, at the Moscone Center in San Francisco.

“Stratusphere is designed from the ground up to help make organizations more efficient in rolling-out and ensuring the user experience for next generation desktops like Citrix XenDesktop,” said Tyler Rohrer, COO and founder of Liquidware Labs. “Being named as a Finalist for the Citrix Synergy Best of Show awards is an honor. We are encouraging the community to log on and vote and also stop by and see us next week at Synergy to learn more about our innovative assessment, migration, configuration, and user experience solutions for VDI.”

Remember to vote now at <http://web.citrix.com/synergy/bestofsynergy/>

About Liquidware Labs

Liquidware Labs™ (LWL) is the leader in Assessment and User Experience Management for next generation desktops including VMware View, Citrix XenDesktop, and Microsoft Windows 7. The company's Stratusphere™ and ProfileUnity™ solutions have been described by analysts as the industry's first “On-Ramp to VDI” by providing complete methodology and software that enable organizations to cost-effectively plan, migrate, and manage their next generation desktop infrastructure with best practices in mind. LWL's comprehensive solutions provide Assessment, Personalization Management, User Configuration, and Service Level Assurance. LWL products are VMware and Citrix certified, and are available through a global network of certified partners. Visit www.liquidwarelabs.com for further information.
