

PRESS RELEASE

Liquidware Labs Stakes Claim to its Fifth Patent in Assessments and User Experience Technology for Virtual and Physical Desktops

Patented solution in use by leading organizations and service providers in desktop infrastructure and Cloud-Computing environments

Alpharetta, Ga – February 22, 2010 - Liquidware Labs, the leader in Assessment and User Experience Management for virtual desktops, today announced that the company has been granted its fifth patent (#7,660,980) by the US Patent and Trademark Office for Liquidware Labs Stratusphere.

The patent covers the use of Liquidware Labs' Connector ID technology, which provides the unique ability to pinpoint network activity for specific users and desktops. The new invention provides a more accurate and high-performance way to detect and ensure that specific user transactions are only occurring through secure network tunnels. The solution is especially useful in virtual desktop enterprises and cloud-computing environments.

The patent is further validation of the advanced and innovative work being done at Liquidware Labs. The Liquidware Labs product suite, including Stratusphere and ProfileUnity, offers the most advanced enterprise and service-partner solutions for virtual desktop assessment, migration, and user experience management and is in use across companies of all sizes, including major Wall Street investment banks, health care and insurance providers, and the world's largest retailers. Liquidware Labs solutions are also used by such well-known service-providers as Perot Systems.

"We are proud of our continued accomplishments in providing forward-thinking IT administrators and service providers with innovative and straight-forward user experience solutions," said Jonathan Alexander, GM Research and Development at Liquidware Labs. "We have another ten patents pending in the US and abroad. As a leader in this relatively new market of assessment and diagnostics for desktop virtualization and cloud computing we expect to continue to push forward on new patents for our unique and innovative inventions."

For more information, including a fully functioning trial version of Stratusphere, please visit www.LiquidwareLabs.com.

About Liquidware Labs

Liquidware Labs™ (LWL) is the leader in Assessment and User Experience Management for next generation desktops including VMware View, Citrix XenDesktop, and Microsoft Windows 7. The company's Stratusphere™ and ProfileUnity™ solutions have been described by analysts as the industry's first "On-Ramp to VDI" by providing complete methodology and software that enable organizations to cost-effectively plan, migrate, and manage their next generation desktop infrastructure with best practices in mind. LWL's comprehensive solutions provide Assessment, Personalization Management, User Configuration, and Service Level Assurance. LWL products are VMware and Citrix certified, and are available through a global network of certified partners. Visit www.LiquidwareLabs.com for further information.

Liquidware Labs, Stratusphere, and ProfileUnity are trademarks of Liquidware Labs. All other products are trademarks of their respective owners; it is not Liquidware Labs' intent to claim these as our own.
