

PRESS RELEASE

LIQUIDWARE LABS LAUNCHES NEW VIRTUAL DESKTOP INFRASTRUCTURE COMMUNITY FORUM - VDI.COM

Independent Community Forum Specializing in All Things VDI

ALPHARETTA, GA, August 10th, 2009 - [Liquidware Labs Inc. \(LWL\)](#), the market leader in virtual desktop and application assessment and diagnostics, today launched [VDI.com](#), a brand new Virtual Desktop Infrastructure (VDI) authority website featuring in-depth discussion articles and forums led by well-known industry gurus such as [Tom Howarth](#), [Michael Keen](#), [Dennis Zimmer](#), [David Bieneman](#) and [J. Tyler Rohrer](#).

VDI.com has been structured and designed to be far more interactive than blogs and other forums to provide members with extensive intelligence in key areas such as application and remote desktop virtualization, security, mobility, cloud computing, assessment, design, user profile and performance experience, hypervisor comparisons, hosted computing TCO, and much, much more.

"I am excited to have [VDI.com](#) as a virtual community water cooler and to be able to interact directly with the VDI community in this way," said Michael Keen, contributing writer to DABCC and Enterprise Strategist at Alliance Technologies, Des Moines, IA. "The forums have heavy hitting industry leaders participating and answering tough questions facing today's VDI administrators. Having this as a key industry resource will help organizations ensure VDI implementation success."

The participating industry luminaries will actively contribute to the forum with an aim to share their immense experience with organizations seeking assurances that embarking on a VDI strategy is one that will bring the desired business benefits to their company's overall strategic requirements.

Registration and participation in www.VDI.com is free, visit today to join and start participating in the industry's latest, exciting VDI forum!

ABOUT LIQUIDWARE LABS INC.

Liquidware Labs Inc. (LWL) is the market leader in virtual desktop and application assessments, bringing a completely new and innovative approach to accelerating the adoption and consumption of virtual desktop infrastructure (VDI). Described by analysts and the industry as providing the "on ramp to VDI", LWL provides a combination of software and consulting methodology to intelligently assess desktop and application viability for virtualization. The company's Stratusphere™ platform provides organizations previously unattainable visibility into the configuration, usage and performance of their virtual (and physical) desktop infrastructure and deployments. The LWL leadership team is comprised of virtualization industry veterans that collectively have skills within professional services, software development, virtualization assessments and deployments and have been selling and marketing virtualization since 2002. LWL products are VMware and Citrix certified, and are available through a global network of certified partners. Visit www.liquidwarelabs.com for further information.
